## Commission Blueprint

[Commission Blueprint](#) is creating quite a storm in the make money from home market. I received a number of emails a few weeks ago, from affiliates promoting this product.

Usually after a few weeks of heavy promotion a product will start to fade as a new make money from home product will take the stage. But, Commission Blueprint has maintained the top spot for some time, so there must be something special about this product.

The creators of CommissionBluePrint, Steven Clayton & Tim Godfrey, claim they have developed a unique step-by-step system that you can copy, and you can use to accomplish similar results.

The *Commission Blue Print* sales page makes quite a staggering claim. Steven & Tim claim they made over \$1,000,000 in one month, selling one Clickbank product.

I would usually just discount this claim, but Clickbank has a feature story of Steve and his success on their website. Clickbank does not do this for just any affiliate - only the most successful affiliates. Also Clickbank would not feature an affiliate on their website if that affiliate were falsifying their Clickbank income.

So, I have to believe Steven and Tim have been quietly raking in Clickbank commissions for months, and now they are ready to reveal their success secrets with the rest of us.

**CommissionBluePrint** covers topics related to secret Google tactics, an idiot proof technique that spits out highly profitable campaigns, how to find the ClickBank products that can create huge incomes, how to implement psychological manipulation on landing pages that “force” people to buy.

Plus a 5 hour video course reveals the exact steps needed to dominate Adwords and make thousands of dollars per day, no matter how many times you’ve failed with the system before.

Steven and Tim claim that you don’t need a large amount of capital to get started. Since this is a system that uses Adwords to get traffic, there will

be some cost involved. However, Steven and Tim claim people using their system have started out with \$5-\$10 and are not making as much as \$20,000 per day.

The claim “It’s not about having ‘capital’ ...it’s about knowing the formula...”

The CommissionBlueprint formula sounds like the “formula” to follow.

Actual Customer Feedback:

*If you are new to Google AdWords and are looking for some direction, this program is excellent!*

*I have yet to dive into the AdWords Campaign business simply because I am fearful of things I don't fully understand. However, after watching the videos for this program, which are rather good I must add, I feel confident I could launch an AdWords campaign successfully without losing my butt!*

*The Unknow Affiliate from Answers.Yahoo.com*

*I just finished reviewing Commission Blueprint manuals and the information is a goldmine. (and I haven't even got to the videos yet) This is one of the few products that I'd highly recommend you to get and it's well worth the price.*

*Peter of WarriorSpecialOffer.Blogspot.com/*

*The part which particularly impressed me after providing me with the nuts and bolts of making high commission was the scaling method. This is a real beauty that can take you from \$100 a day to \$1000 a day if you do exactly as the blueprint teaches you to.*

**QuickReviewOf Research on The Commission Blueprint:**

According to the general online feedback, it appears people are happy with the results achieved from the CommissionBlueprint Money Making Formula. In fact we were not able to find any negative feedback on the

Commission Blueprint.

As with any make money from home system, work is required to obtain results. This is NOT some get rich overnight scheme, but it does provide information to get started on the right foot making money from home, using Google Adwords and Clickbank, or other affiliate products.

**Verdict:**

My research has indicated that CommissionBlueprint is a great resource for those who need help finding profitable Clickbank products, those needing help with creating profitable Adwords campaigns, and those who need help increasing their presell page click through rates.

Though I have never heard of Steven Clayton or Tim Godfrey, the fact that Clickbank has done a case study on, and interview of Steven speaks volumes about his credibility.
