[The Magic of Making Up](#) is supposed to take you by the hand and show you exactly what to do, and what to say to get your ex lover back in your arms.

We've all been through the pain of breaking up with someone we love. It's hard, and it hurts, especially when we don't want it to end.

Many people try to win their ex love back, but they do it all wrong and end of making things worse. They blow any chance you of ever winning their ex back. Don't blow your last probable chance of getting your ex back.

The author (T Dud) claims he can take you by the hand and show you exactly what to do and what to say to get your ex lover back in your arms - Especially if you are the only one trying...

As the author of "The Magic of Making Up", he warns you about his unconventional methods. He admits he is not a counselor, but believes his methods work better than what most relationship counselors recommend.

Magic of Making Up claims his method works so well, that his methods could be used for less than honorable intentions.
